

## Generic Report for GitHub Repository Scan

Field	Details
Repository Owner	Redwan-Islam/ProjectV1
Repository Link	<a href="https://github.com/Redwan-Islam/ProjectV1">https://github.com/Redwan-Islam/ProjectV1</a>
Scan Time	2025-01-26 05:34:36
Threat Level	High
Programming Languages	Python
Functionality Description	perform various data processing tasks

### Malicious Code Details:

Line 32: `with open("report.html", "w") as report_file:`

Potential Issue: Using 'with open' can expose sensitive files if not handled properly.

Line 1: `import subprocess`

Potential Issue: Importing subprocess can allow execution of shell commands, leading to potential vulnerabilities.
